Muhammad Shazaib

Full Stack Engineer (Web, App & AI)

shazaib43429@gmail.com | 03457043429 | Lahore, Pakistan | shazaib-portfolio.netlify.app

SUMMARY

Full Stack Engineer with 3+ years of experience building scalable, high-performance web applications, cross-platform mobile apps (Flutter for Android & iOS) and AI-powered products. Proficient in React, Angular 17+ and Next.js with Redux Toolkit and responsive, user-focused interfaces, with strong back-end expertise in Node.js (Express.js, Nest.js) and Laravel.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Angular 17+, TypeScript, JavaScript, Redux Toolkit, Context API, Tailwind CSS, Material UI

Backend: Node.js (Nest.js, Express.js), Laravel, REST APIs, Prisma ORM, Drizzle ORM

Mobile: Flutter (Android & iOS app development)

AI Engineering: AI engineering and integration of AI features into web and mobile applications

Databases: PostgreSQL, MySQL, MongoDB, SQLite, Firebase, Supabase

Tools & Practices: Git, Wrangler, Push Notifications, Performance Optimization

PROFESSIONAL EXPERIENCE

Full Stack Developer | Kodex Technologies **2024 – Present | Lahore, Pakistan**

- Led development of scalable web applications using React.js, Next.js and Nest.js across 6 production projects.
- Improved application performance by 25–30% using memoization and code-splitting.
- Implemented Redux Toolkit, reducing state complexity and improving maintainability.
- Integrated APIs and streamlined data flow across applications; built reusable UI components that accelerated development.
- Mentored a team of 3+ developers and ensured timely delivery.

PROJECTS

Tangibl – 3D Shoe Customization | tangibl.ai

Tech Stack: *Next.js, NestJS, Prisma, PostgreSQL, Three.js*

- Built the Next.js frontend with Three.js and GLB models, enabling real-time 3D rendering with interactive customization (colors, textures, parts) and live preview updates without full re-render.
- Engineered the NestJS backend with Prisma ORM and PostgreSQL; enhanced performance with lazy loading, code-splitting and efficient asset management for a smooth, responsive experience across devices.

FoxtServe – Service Management Platform | foxtserve.com

Tech Stack: *Next.js, SQLite, Drizzle ORM, Wrangler, Flutter*

- Developed the full-stack website in Next.js with a SQLite database, Drizzle ORM and Wrangler migrations.
- Delivered 5 Flutter apps (Android & iOS) for the User, Technician, Sub-Contractor, Admin and Super Admin portals, all powered by a single shared website backend API.

SkyRig – Cloud Gaming Platform | skyrig.games

Tech Stack: *Next.js, NestJS*

- Launched a cloud gaming platform (Next.js frontend, NestJS backend) that lets users play online Steam games on low-spec systems through a low-cost subscription.

BabySOS | babysosapp.com

Tech Stack: *Next.js*

- Shipped the Next.js frontend website for the BabySOS app.

Aurora – Clinical Research Negotiation Platform

Tech Stack: *Next.js*

- Architected a full-stack SaaS platform that assists clinical research teams in budget and CTA negotiation workflows, with a structured system to analyze contracts and highlight negotiation positions for review.
- Enabled secure file upload for 3 formats (PDF, DOCX, XLSX) and a workflow-based UI for contract review, approval and export of sponsor-ready outputs, on a reusable-component frontend.

Foxtcon – Hotel & Staff Management

- Established a hotel and staff management system inspired by Connecteam, with shift scheduling, CRUD operations and role-based access.
- Designed dashboards for managing employees, shifts and availability using efficient state management and reusable components for a maintainable architecture that grows with the product.

EDUCATION

BS Computer Science | The Islamia University of Bahawalpur **2021 – 2025 | Bahawalpur, Pakistan**
